

Forté Systems is Announcing its New Product Feature Contest

El DORADO HILLS, Calif – Dec. 15, 2005 -- Forté Systems, a leader in providing Practice Management solutions in the United States, is starting a product feature contest for their healthcare billing and practice management software.

This product feature contest is Forté System's call for all users, developers, and companies that are current clients of Forté Systems. This invitation is not only for current users of the Forté 8000 product lines, but also extends to any past users of Forté Systems' practice management software who could comment on their preferred functionality suggestions.

This contest begins December 15th, 2005 and will end on June 30th, 2006. The client who wins first place will get lifetime products from Forté Systems for FREE and one (1) year of technical support. Second Place will receive a free product upgrade for one year and also one (1) year of technical support. Lastly, Third place will receive their next upgrade for free.

"We at Forté Systems are 'throwing down the gauntlet' challenging everyone to send in their best suggestions for making our products the best in the industry", stated Anthony Schwartz, Vice President of Forté Systems. "The best recommendations for our products are those that come directly from our clients, the people who are actually using the products on a day-to-day basis."

Forté Systems offers cutting-edge office automation software solutions for chiropractors, medical doctors, podiatrists, and ophthalmologists. The industry leading 8000 series software offers an intuitive layout and streamlined approach to patient scheduling, billing, electronic claims, and much more. Forté Systems has been in business for over 20 years offering solutions to medical practices nation-wide.
